

User			
String	id	PK	UUID
String	name		Full Name
DateTime	dob		Date of Birth
String	email		Unique Email Address
Gender	gender		MALE / FEMALE / OTHER
String	phone		Contact number
String	passwordHash		Argon2 Hashed Password
String	profilePicture		Nullable
String	nickname		Nullable
Float	domicileLat		Coordinates
Float	domicileLng		Coordinates
Boolean	isEmailVerified		Default: false
Boolean	allowLiveLocation		Default: false
Boolean	isSentEvent		Default: false
SocialPlatform	socialPlatform		Default: NULL
String	socialLink		Nullable
Role	role		Default: USER
DateTime	createdAt		Default: now()
DateTime	updatedAt		Auto updated

Event			
String	id	PK	Non-UUID String
String	title		Event Name
String	description		Nullable details
String	displayPhotoUrl		Header Image
String	location		Nullable location
DateTime	regStartTime		Registration starts
DateTime	regEndTime		Registration ends
Json	sessionOptions		Serialized key-value pairs
Float	price		Admission fee
Int	quota		Default: 100
EventStatus	status		Default: OPEN
DateTime	createdAt		Default: now()
Int	version		Default: 1

Merch			
String	id	PK	UUID
String	name		Merch Name
String	photoUrl		Image URL
String	link		E-commerce URL
Float	price		IDR retail price
Boolean	isSoldOut		Default: false
Int	soldCount		Cumulative units sold
Float	totalRevenue		Cumulative revenue
DateTime	createdAt		Default: now()
Int	version		Default: 1

AuditLog			
String	id	PK	UUID
String	adminEmail		Admin identity
String	action		Action description
String	details		Nullable details
DateTime	createdAt		Default: now()

MediaPost			
String	id	PK	UUID
String	title		Post Title
String	imageUrl		Media URL
String	description		Nullable description
Int	viewCount		Default: 0
Int	likeCount		Default: 0
Boolean	isArchived		Default: false
DateTime	createdAt		Default: now()

MiniEvent			
String	id	PK	UUID
String	creatorId	FK	Ref User.id
String	title		Event Title
String	description		Nullable
Float	lat		Coordinates
Float	lng		Coordinates
Boolean	isActive		Default: true
DateTime	createdAt		Default: now()
DateTime	expiresAt		Timestampz expiry

ServiceBooking			
String	id	PK	UUID
String	requestorId	FK	Ref User.id
ServiceType	serviceType		SHOOTING / HOST_EVENT / EO
String	serviceName		Nullable
String	contactPerson		Nullable
String	whatsapp		Nullable
String	location		Nullable
String	locationString		Meeting Location
String	additionalNotes		Nullable
ServiceBookingStatus	status		Default: PENDING
PaymentStatus	paymentStatus		Default: PENDING
Boolean	pdfExported		Default: false
Int	version		Default: 1
String	deploymentArea		Nullable
String	technicalBrief		Nullable
Float	totalPrice		Nullable
DateTime	createdAt		Default: now()

Booking			
String	id	PK	UUID
String	userId	FK	Ref User.id
String	serviceType		Default: SHOOTING
DateTime	bookingDate		Target Date
String	startTime		e.g. '10:00'
String	endTime		e.g. '12:00'
Float	totalAmount		Calculated invoice
BookingStatus	status		Default: PENDING
PaymentStatus	paymentStatus		Default: PENDING
Boolean	pdfExported		Default: false
DateTime	createdAt		Default: now()
Int	version		Default: 1

UserBroadcast			
String	id	PK	UUID
String	userId	FK	Ref User.id (Unique)
String	message		Broadcast statement
DateTime	expiresAt		Timestampz expiry
DateTime	createdAt		Default: now()

EventRegistration			
String	id	PK	UUID
String	userId	FK	Ref User.id
String	eventId	FK	Ref Event.id
String	selectedSession		Target Session
PaymentStatus	paymentStatus		Default: PENDING
Boolean	pdfExported		Default: false
DateTime	createdAt		Default: now()
Int	version		Default: 0

Comment			
String	id	PK	UUID
String	userId	FK	Ref User.id (Nullable)
String	username		Fallback if anonymous
String	content		Feedback text
String	category		Default: 'Other'
CommentType	type		ADVICE / IDEA
Boolean	isPinned		Default: false
DateTime	createdAt		Default: now()

MerchSale			
String	id	PK	UUID
String	merchId	FK	Ref Merch.id
Int	qty		Units sold
Float	pricePerUnit		Unit price
Float	totalAmount		Invoice total
String	recordedBy		Admin email
DateTime	createdAt		Default: now()
